Education

Sinhgad College of Engineering, Pune

Bachelor Of Engineering in ENTC (8.59 CGPA)

Aus 2019 – June 2023

Pune

ASC College , Rahuri

HSC Computer Science (65 %)

March 2019

Rahuri

Relevant Coursework

- Data Structures
- ChatGPT Prompt
- Artificial Intelligence
- Object-oriented programming
- Microservices Architecture
- Blockchain.

Experience

STAR MARKETING (Freelancing)

Oct 2023 – Jan 2024

Frontend Developer

Remote

- Optimized website performance through code refactoring and lazy loading techniques.
- Wrote structured, tested, readable, and maintainable code and Helped maintain code quality, organization, and automatization for 3+ applications.
- Implemented RESTful APIs to fetch and update data dynamically.

TECTURAL TECHNOLOGIES

Jan 2022 – Mar 2022

Software Engineer Intern

Pune

- Developed user interfaces with modern JavaScript frameworks, HTML5. and CSS3. which improved user satisfaction by 31%.
- Actively engaged in web creative design and development.
- Collaborated with 6 front-end developers and 10+ other team members to establish objectives.
- Built API following RESTful standards to allow users to submit information by storing data in MongoDB.

Projects

Food ordering app | React JS, Tailwind CSS, Parcel, Redux toolkit, JavaScript

November 2022

- A food ordering app using React, Redux toolkit, Parcel, Tailwind CSS which uses real-time Swiggy data.
- Implemented features such as infinite scrolling, chunking(to lazy load the components), debouncing, and a redux store to add and remove food items from the cart.
- Implemented custom shimmer effects for different pages as loading animations for improving the UX.
- We fetch your city's restaurants from Swiggy API, getting the live data.

Brewery-Finder-App | React.js , CSS , External API

September 2021

- This app will be a brewery finder that takes information from the user and outputs breweries in their area. There will be different filtering options including State, city, Name, Type, and if the brewery is dog-friendly.
- Integrate the Google Maps API and connect the information provided by the OpenBreweryDB API to map the locations of the breweries.

Namaste Youtube | React Js, Redux, Tailwind CSS

June 2023

- A highly scalable, fast-loading, performance video streaming platform using React JS, Webpack, Tailwind CSS which uses real-time Youtube data.
- Implemented an efficient search functionality to find and display videos quickly.
- Employed React Router for smooth navigation between different pages and a seamless user journey.

Technical Skills

Programming Languages:: C++ , JAVA , JavaScript , Node.js(Basic), Python

Web Technologies and Frameworks: HTML, Tailwind CSS , React.JS , REST APIs

Libraries : Redux , Material-UI , Git, GitHub , Postman

Databases: MongoDB, Firebase, MySql

ACHIEVEMENTS

- Successfully contributed to the development of four frontend projects, showcasing proficiency in HTML, CSS, JavaScript, and various frameworks.
- Recognized for exemplary problem-solving skills with a prestigious LeetCode 50-Day Challenge badge.
